

# Multifunction Energy Meter

For Industrial & Commercial Metering

# Multifunction

# Direct Connection Energy Meter

# High Accuracy

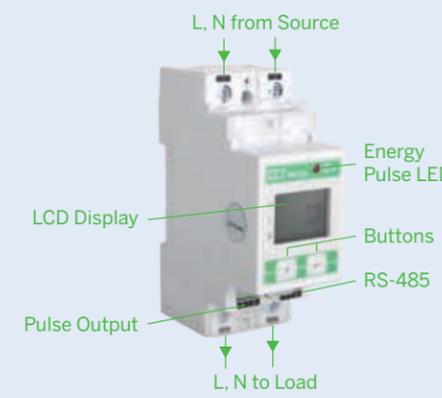

**PMC-340 and PMC-220** are CET's latest offers for the low voltage energy metering market featuring DIN rail mount, high accuracy, multifunction measurements and a large, easy to read LCD display. The PMC-340 provides 3-Ø multifunction measurements with 100A Direct Input or 5A CT Input and optional Digital Inputs for status monitoring or pulse counting for WAGES information. The PMC-220 is designed for low cost 1-Ø multifunction measurement with Direct Input up to 63A. Both PMC-340 and PMC-220 come standard with a front panel LCD as well as a Solid State Relay Output for energy pulsing. The standard RS-485 port and Modbus protocol support allow them to become vital components of intelligent and multifunction monitoring solution for any Energy Management Systems.

## PMC-340

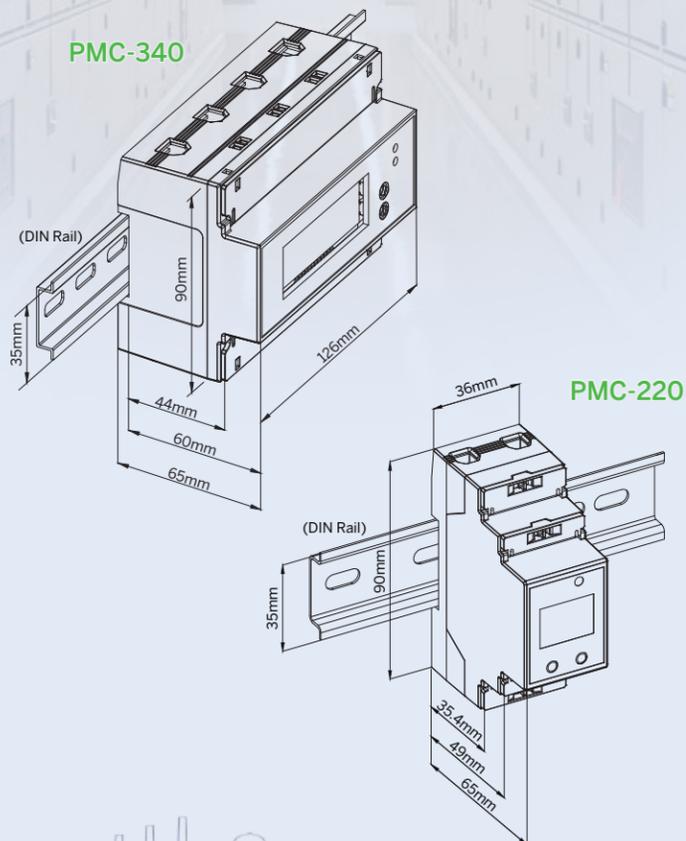

## PMC-220

## Typical Applications

- DIN rail mount energy metering
- Industrial and commercial metering
- Substation, building and factory automation
- Sub-metering
- Harmonic monitoring (PMC-340)
